

Public Notice
Proposed Revision of the State Construction Permit for
Intermet Havana Foundry in Havana

Intermet Havana Foundry has applied to the Illinois Environmental Protection Agency (Illinois EPA) for a revision to a previously issued construction permit allowing them to add an iron casting/molding line at their facility located at 227 Wagner Avenue in Havana. The revision removes non-existent units from the construction permit, groups units into processes and revises throughput and emission limits to aid process flexibility. The revised permit is not defined as a major source or major modification as defined by the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permits, Revised). These documents and the application can also be obtained from the Illinois EPA's offices at 5415 North University in Peoria, 309/693-5461 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight January 11, 2003. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
